

BRAVE KIDS UNDER THE SKY OF WROCLAW 2021

We invite you to a unique festival of children and youth - the festival Brave Kids under the sky of Wrocław. The two-day event (28-29.08.2021) - created by the Song of the Goat Theater Association will combine a festival of children's and youth art groups from Wrocław and Lower Silesia, as well as young artists invited from all over Poland. We invite you to present - dance, theater and music performances, exhibitions, concerts and performances combining various forms of art. Children and teenagers will share their sensitivity, dreams and cares on eight scenes scattered throughout the city. The coordination of each stage, as well as the accompanying animations, will be provided by the event partners - Wrocław non-governmental organizations and neighborhood groups integrating the inhabitants of Wrocław on a daily basis.

We have a year of pandemic behind us and children and young people staying at home. A difficult year was a challenge for all, but especially for young people who have lost one of the most important elements that determine their mental and physical health - peer contacts.

Likewise last year, and now, we want to hand over Wrocław to children and youth for two days. It is for them that the scenes will be prepared - places where they will be able to meet and share their talents, interests and history. This year's edition of Brave Kids under the sky of Wrocław will be held under the slogan:

“Let us give the floor to children and youth. We want to hear you”

The event will take place on Saturday, August 28, 2021 at Plac Wolności in Wrocław, where we will be able to participate in a great colorful happening, animated and conducted by children's and youth art groups. On that day, people's joy and energy will move Wrocław.

On Sunday, the inhabitants of Wrocław and the guests coming will have an unique chance to listen to and watch the voices of children and young people. Eight scenes scattered throughout the city will host dozens of artists from Lower Silesia and all over Poland. The key to the performances and exhibitions presented on that day will be their genesis - to the events we invite groups whose activities are based on ideas and inspiration from young people, their stories, experiences, and their sensitivity. We want to hear again and get to know the world of children and young people from Wrocław and Poland, and also, thanks to the surprise we prepare, from all over the world.

Brave Kids under the sky of Wrocław 2021 are two days of restoring the right of children and young people to be... children again.

All scheduled events will be open and official at the discretion of GIS and the Ministry of Health.

Co-financed by the Municipality of Wrocław
